shiyu.amber.zhao@gmail.com

Results-driven UX Designer with 2+ years of end-to-end product design experience in e-commerce and AI-powered platforms. Led 13 shipped projects at a leading DACH e-commerce platform, with full ownership of feature design cycles. Proven collaborator with developers and product owners. Fluent in English, German (C1), and Mandarin.

Experience

UX/UI Design Working Student

Oct 2024 - Feb 2026

empiriecom | Bamberg, Germany

- End-to-End Feature Ownership:** Independently designed the Drupal Preview interface from initial research and sketching through iterative feedback rounds to final developer handoff – the most complex and impactful deliverable of the internship.
- Cross-Functional Collaboration:** Sole designer in App Refinement sessions with multiple developers; confidently defended Filter & Sort Option design decisions against technical questions, gaining stakeholder alignment.
- Platform Migrations (3 projects):** Led iOS App, empiriecom website, and BAUR Gruppe career page migrations from Zeplin to Figma, building deep mastery of the internal design system, component library, and web-vs-app design distinctions.
- UX Optimization (8+ tickets):** Delivered targeted improvements including Message Center visibility, bottom navigation bar, checkout alert flow, bold text search suggestions, and Back-to-Top button – each improving design consistency and user flow across platforms.
- Accessibility (a11y):** Applied WCAG accessibility standards across all new UI elements and feature work; identified it as a key area for deeper future focus.

Interaction Designer Intern

Jan 2023 - May 2023

Xkool Technology | Shenzhen, China

- Overhauled information architecture and design system for BuildingCreator (AI-powered architectural drawing software), achieving a 20% increase in task completion speed and establishing platform-wide design consistency.
- Designed and launched the company's new blog site UI/UX from scratch, exceeding content engagement targets.
- Designed and iterated AI-powered features from concept to production, ensuring accessibility (a11y) compliance across all new elements.
